

# TECHNICAL DATA

PRODUCT CODE

## «SUPRA EXPERT POLYURETHANE FOAM CLEANER»

105 000

Technical data # 20060531

### DESCRIPTION

Hydrocarbon solvent base cleaner under carbon dioxide pressure to use with professional polyurethane insulation foam gun applicator.

### INTENDED USES

Dissolves and remove uncured polyurethane foam from professional gun applicators.

**REMARKS:** Do not use in contact with surfaces as paint, plastic materials, asphalt or tar products (coatings, adhesives, etc.), insulation panels (polystyrene, etc.) which can be damaged by solvents.

### ADVANTAGES

⇒ Ozone safe

⇒ Easy to use

### TECHNICAL GUIDE

<b>COLOR:</b>	Clear.
<b>STORAGE:</b>	«SUPRA EXPERT POLYURETHANE FOAM CLEANER» is not deteriorated by frost. For best efficiency, store between 10°C (50°F) and 30°C (86°F). <b>NEVER STORE AT TEMPERATURES OVER 49°C (120°F).</b>
<b>COMPOSITION:</b>	Hydrocarbon solvent under pressure.
<b>CLEANER (skin contact):</b>	Wash immediately with soap and water and rinse.
<b>FLAMMABILITY:</b>	Flammable. Flash point 76°C (188°F).
<b>FREEZE-THAW STABILITY:</b>	«SUPRA EXPERT POLYURETHANE FOAM CLEANER» will not be affected if frozen.
<b>APPLICATION METHOD:</b>	Professional gun for polyurethane insulation foam.
<b>APPLICATION TEMPERATURES:</b>	From 10°C (50°F) to 30°C (86°F) for best efficiency.

### APPLICATION

«SUPRA EXPERT POLYURETHANE FOAM CLEANER» can be applied in winter as well as in summer. However, the product's temperature must be above 5°C (40°F) for best efficiency.

**Read all instructions and warnings carefully before using.**

- ⇒ Use immediately after removing the foam can to prevent curing.
- ⇒ Avoid contact with skin.
- ⇒ Use only with adequate ventilation.
- ⇒ Wear safety goggles and protective clothing.
- ⇒ Use the adapter and spray on to valve and applicator nozzle before foam cures.
- ⇒ If the gun is to be repaired, remove the foam can and immediately screw the cleaner can on to the valve and flush gun thoroughly into suitable container until cleaner runs clear.
- ⇒ Do not over tighten.
- ⇒ Remove cleaner can from valve and press trigger to release pressure.
- ⇒ **Release the gun pressure. Do not point the gun towards yourself or others.**

### RESTRICTIONS

«SUPRA EXPERT POLYURETHANE FOAM CLEANER» can dissolve and remove only uncured polyurethane foam. After curing, Polyurethane foam must be removed mechanically.

### SAFETY PRECAUTIONS

**KEEP OUT OF REACH OF CHILDREN.** For more information or safe use of «SUPRA EXPERT POLYURETHANE FOAM CLEANER», consult material safety data sheet (MSDS) before using. When «SUPRA EXPERT POLYURETHANE FOAM CLEANER» is used indoors, the area must be well ventilated to the outdoors. Do not recycle the air.

«SUPRA EXPERT POLYURETHANE FOAM CLEANER» contains flammable solvents. Do not smoke while using this product. Eliminate all sparks, flame or heat producing sources in or near the work area. Do not breathe vapors. Avoid contact with eye, skin and clothing.

**DO NOT INGEST**

Disposal: Dispose in accordance with applicable Federal, Provincial and municipal regulations.
